## GROOVE MARBLE TRIVETS FURNITURE / LIGHTING / ACCESSORIES

**Hallgeir Homstvedt on the design** “Trivets are normally stowed away when not in use, yet I wanted to create a beautiful object, which can add to the atmosphere and bear being displayed. The linear grooves in the marble give the trivets a graphic expression and serves as a nice contrast to the natural structures and patterns in the marble. Leave the GROOVE trivets on the table even when not in use and let them add character to your interior.”

PROCESS	Raw marble is cut and shaped and the surface is oiled.
