MATCH TEALIGHT HOLDER FURNITURE / LIGHTING / ACCESSORIES

Form Us With Love on the design "We came up with the idea for Match when trying to light a tealight candle, constantly burning our fingers. We have therefore created a design with a vent where the lit match securely travels down to the tealight. The vent also doubles as an aesthetic feature, emphasizing the flickering flame."

PROCESS

Liquid glass is poured into a special designed tooling. When still liquid a stamp presses down into the tooling to create the final shape. Final touch of fire polishing is made.
